Percentage of GB rockets destroyed to date	68.7
Percentage of GB bombs processed to date	76.4
Percentage of total agent tons destroyed	14.42
Number of igloos emptied	30

UMCDF Operations

- Safety is number one at UMCDF: employees have worked 551 days since the last lost-workday accident (Oct. 22, 2004).
- Rocket processing on April 26 totaled 525. It was the 7th-best processing day in UMCDF history.

UMCDF's Human Resources department and others participated in a job fair held at the Hermiston Community Center, April 20. The event provided instructional classes for participants, as well as the opportunity to make contact with many of the larger companies in the area. HR assistant Angie Anteau (left) explains opportunities with Washington Group International to a prospective job seeker.

*Leading the
Way to a Safer
Future*

The Umatilla Chemical Agent Disposal Facility is safely destroying the stockpile of weapons stored at the Umatilla Chemical Depot while ensuring maximum protection for our workers, our community and our environment.

CREATING A SAFER TOMORROW
