

### ANCA stores, moves munitions

*Anniston Chemical Activity (ANCA) employees, like those here, have safely moved more than 394,420 nerve agent-filled and mustard agent-filled munitions to the Anniston Chemical Agent Disposal Facility for safe, permitted disposal. (Abrams)*

*Excess facilities target of early removal  
ANCDF team safely manages all site work*

The Pollution Abatement System of the Anniston Chemical Agent Disposal Facility Brine Reduction Area is being removed from the site. Early removal of excess equipment and facilities will help site managers efficiently close the site at the end of mustard-filled munition demilitarization operations. The work is being done under a contract with Farr Contracting and Cleveland Wrecking. (Sholin)
